IRUWA INITIATIVE — REDUCED CONTRIBUTION ENDS 31 DECEMBER 2026

Act before the deadline to save USD 25,000 on your contribution.

PROGRAMME OVERVIEW

The Naoero Economic and Climate Resilience Citizenship Programme was established under the Naoero ECRCP Act 2024 and is administered by the Naoero Program Office (NPO). It is one of the Pacific’s newest citizenship by investment initiatives, with contributions flowing directly to Naoero’s Treasury Fund in support of climate and development priorities.

Global Citizenship Partners is a licensed agent for this programme. Naoero is the world’s smallest independent republic — a 21 km² island in the central Pacific — actively investing in economic diversification, renewable energy and climate resilience.

KEY BENEFITS

No minimum stay — No obligation to visit or reside in Naoero — ever.

Unrestricted dual citizenship — No restrictions on holding other citizenships simultaneously.

Fast processing — Most clients receive citizenship within 3–4 months of submission.

Climate legacy — Contributions fund climate adaptation, infrastructure and renewable energy.

Family inclusive — Spouse, children, parents and siblings can all be included.

Politically neutral passport — A valuable second passport providing security during times of global instability.

AT A GLANCE

Programme	Naoero ECRCP
Act	ECRCP Act 2024
